

Save Your Daughter

No. 125 West 88th Street,
New York City, N. Y., April 3, 1902.

Wine of Cardui has been a blessing to my home. I have often found that it was a great relief when I was weary or in pain, but I am especially grateful for what it did for our daughter and only child. I noticed that her menses were tardy and she suffered with headaches and giddiness, heaviness in the abdomen and about the loins. This seriously interfered with her studies and she had to discontinue several of them.

A visitor calling on me and discussing the matter suggested that I give her a course of your Wine of Cardui as it had relieved her daughter of a similar trouble. After my daughter had used it for five weeks I found a great improvement in her looks, health and behavior, in fact she was a different girl. The flow became regular and we have not had any difficulty since.

WINE OF CARDUI

Here the menstrual function had not been properly started and the unnatural condition was making the young girl an invalid. The headaches and giddiness, indicated something more than a mere temporary ailment. They were symptoms of a functional weakness which would become more and more aggravated as years went by. But Mrs. Thompson was ready to take advice for her daughter's welfare and she gave the little sufferer Wine of Cardui and now she is a well young woman.

If your daughter is sickly and frequently ailing the letter of this good mother contains the best advice you can follow.

Wine of Cardui is the menstrual regulator that cures nine cases out of every ten. Young girls, mothers and aged women find this tonic indispensable. All druggists sell \$1.00 bottles Wine of Cardui.

GWENDALE NOTES.

General Collection of Items From Pecan Creek.

Mrs. Timberlake is doing a lot of carpet weaving at present, much of her custom coming a long way. She weaves fine carpets.

Mr. T. Johnson has added another star to the crown of Gwendale's mineral find. In passing over the hill recently he picked up a splendid specimen of Jack ore.

Wild ducks, geese, cranes and the web-footed birds of the air in general, are migrating southward as fast as wings can flutter. They are not stopping to feed in very great numbers, but are fleeing before the blizzard that is now upon us.

Last Saturday night Mr. Wolfe, of this place, delivered a temperance address to a full house at Ironside school house and also preached to the people Sunday night. They are going to organize a Sunday school in that district next Sunday.

We saw some Japan plum grafts, grafted on wild plum stocks, that have attained the length of six feet and more since spring. Visit to the north recently indicated they were as good as dead. But when they saw the fruit, "don't check out."

Mr. Smith is paying out the neighborhood for a new clock. We are sorry to see the old one go.

ing, especially at the low prices paid for same. Good walnut lumber is worth \$80 to \$70 per thousand feet. It would be well for all those owning sizable walnut trees to hold them for the right prices in the near future.

A gentleman, who has been in the iron business, and who recently paid a visit to the iron hill, says there will be, within a short time an electric car line from Vinita to Gwendale. The same individual is super-enthusiastic over the prospects for a great iron city here. He loaded himself down with fine specimens of ore. A recent assay of the ore revealed 66 per cent hematite iron, 4 per cent silver, 2 per cent copper, with traces of gold.

Preacher Has Gone Home

Rev. T. F. Bullard, of the Congregational church, left on the flyer last night for Allegheny, Pa., and may not return. This action was the result of a misunderstanding of the intentions of the eastern church board regarding this work and because the gentleman did not see his way clear to bring his family here at this time. Mr. Bullard's decision is regretted, as he is regarded as a strong preacher. It is a pleasure to state that the work of the church at this place will be resumed with as little delay as possible.

To remind you of winter time, I will call and get your clock should it need repair. Chas. Hartman, at Chapman & Briggs. Tel. 28. 31-45

PRICES OUT OF PROPORTION.

Cows Costing \$2⁰⁰
Bring Near \$40
on the Block.

The metropolitan papers have just gotten hold of the idea that meats to the consumer are too high when the price on the hoof are taken into account. Cattle are selling at little over half the price as formerly, and yet the price of meat on the block is as much as ever and, in many cases, higher.

The packers are charged with being to blame, but they are not to blame, for the same condition in the country towns, where butchers are paying \$1.75 to \$2 a hundred for cows and selling the meat at 6 to 12 1/2 cents or 15 cents a pound. A cow weighing 1000 pounds would cost net to the butcher, 4 cents a pound, and at the present selling price of meat would allow him something like \$35 or \$40—which is too much for the expense of buying, killing and selling.
